

# Document Tittle

Leslie Doe

## 1 Introducción

This is the L<sup>A</sup>T<sub>E</sub>Xtemplate for the report in case you decide to write it in L<sup>A</sup>T<sub>E</sub>X.

## 2 Materiales y Métodos

This is a reference to section ??, and this is a reference to the empty figure below (figure ??).

Figure 1: This is the caption of the figure

In section ?? we present the materials used in this work.

### 2.1 Materiales

These are some of the materials we used as bullet-points

- **A pencil**
- *A computer*
- **A brain**

While these are with numbers

1. A pencil
  - i) With a sharp tip
  - ii) Blue
2. A computer
3. A brain

### 2.2 Métodos

We used the known formula  $E = mc^2$ , where  $m = \frac{m_0}{\sqrt{1-(\frac{v}{c})^2}}$ . We also used the formula:

$$F = \sum_{i=0}^N f_i(\alpha, \beta, \gamma, \pi) \quad (1)$$

This is a reference to equation (??) which wasn't shown in section ??.
